

SUMMARY

Full Stack Developer with hands-on experience in building scalable web applications using React.js, FastAPI, Flask, and Laravel, backed by PostgreSQL and MySQL databases. Skilled in REST API development, frontend–backend integration, and MVC-based application architecture. Experienced in developing and maintaining PHP/Laravel projects, including database management with phpMyAdmin. Strong foundation in machine learning and deep learning concepts, enabling intelligent feature integration in modern web products.

WORK EXPERIENCE

Full Stack Developer – SRD TECHNOLOGIES INDIA

- Developing and maintaining **Winkelkart**, a production-level e-commerce platform built with PHP (Laravel), contributing across both frontend and backend layers.
- Implemented core features including product management, cart system, order processing, and payment gateway integration.
- Designed RESTful APIs and backend modules using Laravel MVC architecture while integrating responsive UI components.
- Managed MySQL databases via phpMyAdmin and handled deployment, server configuration, and production issue resolution using Git-based workflows.

EDUCATION

Degree	Institute	Board / University	CGPA/Percentage	Year
MCA	Future Institute Of Engineering And Management, Kolkata	MAKAUT	-	2024-2026
BCA	Future Institute Of Engineering And Management, Kolkata	MAKAUT	8.4 CGPA	2021-2024
Senior Secondary	Falakata High School	WBCHSE	87.6%	2021
Matriculation	Falakata High School	WBBSE	88.14%	2019

COLLEGE PROJECTS

- AI Resume PDF Reader**
Python, Google GenAI, Pypdf2, Langchain, FAISS, Flask
 - Designed and developed an intelligent web application with interactive features, PDF-based conversational assistant with information extraction and PDF- comparison. Leveraged **Google Generative AI** for content generation and **FAISS** for advanced **vector-based search**, enabling context-driven question answering. Built robust PDF text extraction, segmentation, and storage processes to deliver seamless user interactions and efficient information retrieval.
- AI Travel Planner**
Python, React, Gemini AI, Tailwind CSS, Firebase
 - Built an intelligent travel planning web app using **React**, **Gemini AI**, **Tailwind CSS**, and **Firestore**. The app allows users to generate personalized travel itineraries based on their preferences using natural language prompts. Integrated **Gemini AI** for real-time AI recommendations and **Firestore** for user authentication and cloud data storage. Designed with a clean, responsive UI using Tailwind CSS to ensure seamless user experience across devices.

TECHNICAL SKILLS

- Programming Languages:** Python, Java, PHP, C, SQL
- Frontend:** React JS, HTML5, CSS3, Bootstrap, TailwindCSS
- Backend Frameworks:** Flask, FastAPI, Django, Laravel
- Databases:** MySQL, PostgreSQL
- Developer Tools:** Git & Github, Docker, VS Code, Jupyter Notebook, Anaconda, Linux Environments, Postman, phpMyAdmin
- Data Science/ Machine Learning/ Deep Learning:** Data visualisation, Supervised Learning Algos, Unsupervised Learning Algos, ANN, CNN, EDA
- ML / Data Science Libraries:** Scikit-Learn, Tensorflow, Numpy, Pandas, Scipy, Matplotlib, Seaborn

Participation

- Data Analytics and Visualization Job Simulation from Accenture
- Internship and project letter from Ardent Computech Pvt. Ltd.
- Participated in HACKJMI 2025
- Conducted a Farewell cum Fresher’s Program IMPULZ -2022 in FIEM
- Participated in Web Development Workshop organized by Xplorica in FIEM association with Coding Ninja.
